TO-DAY'S CABLE NEWS.

England's G. O. M. in Wales—Attends Church.

Races at Paris—Trickett and Beach to Row.

GLADSTONE IN WALES.

SWANSEA, June 5.—Mr. Gladstone today heard a sermon by Canon Smith in defense of the established church in Wales. On returning from the church, Gladstone was met by an immense crowd, escorting the deputation bearing the address to him from the citizens of Cork. He made no formal speech, but thanked the deputation for the kind wishes expressed in the address and added that the Irish Protestants need not fear persecution at the hands of their Catholic fellow countrymen in case autonomy was obtained.

GLADSTONE AND THE STANDARD.

LONDON, June 5.—The *Standard* says we do not believe that Lord Hartington and Mr. Chamberlain will be lured by such a bait as Gladstone hint, that he will not make exclusion of the Irish representations from Westminster one of the vital principles of Home Rule with him; because there is far greater points than this upon which Gladstone has not yet yielded, such as a department of justice in Ireland; executive administration, religious liberty and rights of property. If a Dublin parliament is once granted everything else will follow.

DONOVAN THE BRIDGE JUMPER.

LONDON, June 6.—Lawrence Donovan, who jumped off the Brooklyn bridge and also off the Suspension bridge at Niagara Falls, to-day jumped from London bridge into the Thames. He refused to permit a collection to be taken up, saying that he jumped merely in honor of the Queen's jubilee. He intends to jump at an early day off the Clifton Suspension bridge at Bristol, the highest bridge in England.

SEVERE STORMS.

LONDON, June 6.—Mr. Ismay of the firm of Ismay & Imaries, has offered to start a pension fund at Liverpool for disabled seamen.

Violent hail storms have done immense damage in the Temzvar and Bazias district in Hungary. The thunder storms on Saturday in southwestern Germany resulted in the loss of several lives and great damage to crops.

THE THISTLE WINS.

A brisk breeze was blowing this morning when the yachts started in the race at Dover round the course of 44 miles long. The Thistle led directly she turned the pier within her own length and was a quarter of a mile ahead of the others at the end of the two miles. When the Thistle had covered 22 miles, or half the length of the course, she led the Genesta by 5 minutes and 42 seconds; the Irex was 3rd and one minute behind the Genesta. Thick fog has considerably interfered with the races, but it is now clearing away.

THE YACHT THISTLE.

LONDON, June 6.—The yachts Thistle, Irex, Genesta, Slenthhound, Neptune and Foxhound will take part in the Dover contest to-day, distance 44 miles. The Thistle will compete in some of the leading contests at Liverpool before sailing for America. She will not take part in the jubilee race.

LATER.

The Thistle was first to cross the finishing line leading the Genesta which was second by eleven minutes, the Irex, third.

DAVITT ON EVICTIONS.

DUBLIN, June 5.—Michael Davitt addressed a Nationalist meeting in the Bodyke district to-day. He again urged the people to offer the utmost resistance to evictions; to take possession of their houses when they have been evicted. He declared it was the duty of the manhood of the district to assemble and rebuild the house that had been razed. He announced his intention to hold a meeting next Sunday of between thirty or forty thousand men, for the purpose of rebuilding every house demolished during the past or the coming week.

TRICKETT AND BEACH.

LONDON, June 6.—Trickett, the oarsman, has challenged Beach to a contest for the championship of the world. Beach has accepted the challenge.

AMERICAN SUICIDES.

Two officers, said to have belonged to the U. S. army and navy respectively, have committed suicide at Monte Carlo.

PARIS' GRAND PRIZE.

PARIS, June 5.—The race for the Grand Prize of Paris was run at Chantilly to-day and was won by M. Aumont's bay filly, Tenebreuse; M. Davison's bay colt, The Baron, was second, and Baron Ade Schickler's bay colt, Krapaiga, third. The other starters were Merry Hampton, Monarch St. Luc, Lesanncy, Trapotel, Bayarde, Gourney and Vanneau. A good start was made, St. Luc and Lesanncy taking the lead, followed by The Baron, Merry Hampton, Bayarde, Trapotel being last. After the first thousand yards Monarch yielded for fifty lengths along the incline, Lesanncy made bad play at the last round. The Baron went to the front alongside of Tenebreuse and Merry Hampton. Tenebreuse then went ahead and won easily by two lengths.

A CIRCUS HOLOCAUST.

BERLIN, June 5.—During a circus performance at Leschen last evening, a storm arose and a portion of the roof of the structure was blown off. The pendant lamps hanging from the roof were broken and blazing petroleum poured down on the heads of the people below. There were 2000 spectators and a fearful panic arose. In the midst of the tumult one of the lightly built walls of the structure fell in and the whole building immediately collapsed. A large number of persons were burned and many trampled to death. At least three hundred others were more or less injured.

A TOBACCO MONOPOLY.

MADRID, June 6.—The Bank of Spain has presented a tender to the government offering to form a company to take a lease of the tobacco monopoly and to pay the government $18,000,000 yearly for the privilege, in addition to half the profits after the first three years. No other tenders have been presented and it is probably the bank's proposal will be accepted.

MUST BE ATTENDED TO.

BRUSSELS, June 5.—The federation of laborers in the Bonsage district have issued a manifesto threatening to re-open all the strikes unless their demands are acceded to.

BRIBERY IN HIGH QUARTERS.

CONSTANTINOPLE, June 6.—M. Nelidoff in communicating his government's objections hinted that if the Sultan ratified that convention, such action might cost him his throne. He also indirectly charged England with bribing the Grand Vizier, with six hundred thousand pound sterling, and other palace officials with large amounts, in order to receive their approval of the convention. The Sultan, after his interview with M. Nelidoff hurriedly summoned Sir Henry Drummond, Wolff, special British envoy with reference to Egypt, and questioned him as to the truth of these charges. Sir Henry indignantly denied that he, or the government, had been guilty of bribery. The Turkish officials, who were said to have received bribes warmly protested their innocence.

A WARLIKE TONE.

ST. PETERSBURG, June 6.—The *Novoe Vremya* says the first attempt that is made to replace the present Emir of Bokhara by his brother will be the signal for the Russian occupation of the country. It also says it suspects the English to be intriguing in Bokhara and warns them that such conduct instead of rendering Russia peacefully in accepting a proposed settlement of the Egyptian question will have the contrary effect.

THE EMPEROR WILLIAM.

BERLIN, June 6.—The Emperor William, on the advice of his physicians has decided not to go to Leigentz. The *Post* learns that the Emperor will go to Ems probably on the 18th inst., and afterwards to Gastein.

PROTESTED AGAINST.

CONSTANTINOPLE, June 5.—Count Gemonte Bello and M. Nelidoff, French and Russian Ambassadors, respectively have lodged the objections of their governments to intentions by Turkey of an Anglo-Turkish convention relative to Egypt.

AN IMMENSE HIDDEN TREASURE.

MADRID, June 6.—It is reported that a hidden treasure to the value of ninety-five million pounds has been discovered in the palace of a deceased Vizier at Rabat, Morocco. The Sultan it is said has confiscated the treasure and is having it conveyed to Imperial coffers.

FATAL COLLISION.

LONDON, June 6.—A collision occurred in the Channel between the British bark Hamburg, Capt. Caldwell, from New York for Liverpool, and the British steamer Fern. The steamer was sunk and her captain and four seamen drowned.

THE KAISER'S ILLNESS.

BERLIN, June 6.—It is officially announced that Emperor William caught a cold during his visit to Kiel last week, and is in consequence compelled to remain in his apartment. There are no serious symtoms connected with his illness.

A FLOP.

BERLIN, June 6.—The *Germania* admits the truth of the report that the Duke Paul of Mecklenberg-Schwerein has returned to the Roman Catholic Church.

BOULANGER AND LEFRO.

PARIS, June 6.—General Boulanger was among the spectators at the races yesterday. He was cheered by hundreds who recognized him.

General Lefro writes maintaining the correctness of his recent revelations.

MR. VAN HORNE'S UTTERANCES.

To THE EDITOR OF THE TIMES:

SIR,—According to the *Colonist* of the 4th inst., Mr. Van Horne told the representative of that paper that "the C. P. R. had but to enter into an agreement with the Northern Pacific and have the Sound trade, when the latter would desert Winnipeg and leave British Columbia, when Victoria would have to take there (the C. P. R.) rates." Call this statement "A."

In the *Colonist* of June 5th, Mr. Van Horne is reported at the Board of Trade to have said, in reference to his company opposing the construction of a line to the boundary from New Westminster: "I think that they will find it to their interest to do so; I also think Victoria is interested in opposing the construction of the road, as it would only have the effect of taking trade away from it." Call this statement "B."

Mr. Editor, it is a mathematical principle that lines having a common origin, with opposite directions, are respectively distinguished by opposite signs. Applying this principle to the foregoing statements I find the first to be *minus* A and the second to be *plus* B. If the statements are of equal numerical value, I will substitute for A and B the number 10, when I find the values of the two quantities to be respectively *plus* 10 and *minus* 10. Taking now the Algebraical sum of these two statements I find by a simple equation the very elegant solution that *plus* 10 *minus* 10 equals zero.

A RAILROADER.

Meeting of Council.

A special meeting of the Council was held in the Mayor's office, City Hall, this afternoon, and is in session as we go to press. All were present excepting Coun. Barnard. The meeting was convened to discuss a water works system for the city, prepared by Mr. J. H. Bell, C. E. That gentleman was present and explained very sensibly the advantages he claimed for his system, both as to cost and general utility. He also submitted drawings, showing the high and low levels and the elevations at various points throughout the city. The Councillors present discussed the scheme and appeared to be well pleased with it. Doubtless it will come up again for a further discussion, when particulars will be made known to the ratepayers.

Fast Time.

The Yosemite made the run from Vancouver to this port on Saturday night in five hours; distance 76 miles. The same steamer made the run from Westminster to this port a few years ago in four hours and twenty-five minutes; distance 75 miles. This is supposed to be the fastest run ever made by her in these waters, and is about 17 miles per hour.

Sunday Decoration.

That notorious outcast of society, "Lilly of the Valley," was seen on the streets yesterday with a cigar in her mouth and a switch in her hand "painting the town red" on a drunk.

A half-breed woman, the worse for liquor, visited two churches last evening, and, becoming profane and noisy, was forcibly ejected. Disgraceful scenes are both of these on Sabbath day.

A Splendid Subscription.

The collection made to-day by the workmen of the Albion Iron Works for the Nanaimo fund amounted to the handsome sum of $225. This is an example worthy of imitation by other establishments throughout the country.

OUR FISCAL POLICY

Denounced by the London Standard—The Union Threatened.

The English Tory Journal Hostile to a Probation Policy.

LONDON, June 6.—The *Standard* reads Canada a severe lesson for increasing her duties on iron and steel which it says is a selfish policy and can only tend to sunder the colonies from the mother country. The increase was made, it says, on the hollow pretense of a desire to check the rapid increase of trade with the United States, in our favor. We decline the offer with thanks. We do not want our trade fostered at the expense of our navigation, even if it could be done; but it cannot be done in that way. The interest of Canada is to foster trade with the United States by every means in its power. Free trade on the Canadian side is large and so it will continue to be in spite of the insane tariff of the United States and the larger the trade with the United States the richer will the Canadian people become, the more business will they do with other countries.

O'BRIEN IN NEW YORK.

Gets into Trouble with the Irish National League.

NEW YORK, June 5. At a meeting of the Fifth Ward Branch of the Irish National League to-day, ex-Senator O'Grady made an address in which he strongly commended O'Brien for refusing to attend the mass meeting last night. O'Grady said that Ireland's cause should be mixed with no other question. The religious prejudices that formerly separated the Irish people had now passed away forever. No other conflicting element should be allowed to come in. He was wildly applauded.

O'Brien in his statement of dealing with the committee of arrangements says he accepted the invitation solely on the condition that his action should be directed to the service of the Irish cause, and should in no manner increase the difficulty of the Irish people, which was already sufficiently cruel, by embroiling us in American issues, and thus estranging the sympathy of the American people which is one of the sheet anchors of our success. He also says the committee at first brought him resolutions to be amended as he saw fit, and agreed to change the presiding officer McMicken in accordance with his objection. They did not again, however, come to him until Saturday p. m., when he learned the resolutions could not be changed, and that the objectionable officer should preside. He then declined to alter his determination.

O'BRIEN DEFENDS HIMSELF.

NEW YORK, June 5.—O'Brien has received numerous telegrams congratulating him on the course he took in regard to the parade last night. On being interviewed to-day he said: I have not the smallest apprehension that the Irish Nationalists misunderstand my action. They know how many malignant enemies are watching every word and act of ours, in order to torture them into weapons against Mr. Gladstone and Parnell. I am satisfied they will also feel I have acted under a painful and solemn sense of responsibility to our great leader, Parnell, and from conviction my other course would have brought about the utter destruction of the movement, at a moment when the opinion of millions of English people is trembling in the balance, and when most unscrupulous devices are being used against us. Mr. O'Brien was astounded at the statement made from the platform in Union Square, that he had scared out the resolution referring to Dr. McGlynn. The resolution submitted by the committee contained no allusion, direct or indirect, to Dr. McGlynn's case, and the only references in conferences to him was the statement that Dr. McGlynn was to be present and speak. To that arrangement he had no objection. O'Brien added as to the insulting suggestion that he was captured by Tammany Hall, or any American politicians, I can only say if American politicians had been guilty of the remotest attempt to influence my judgment in the direction of swerving the American party and its interest, I should have known to resent it; I should have resisted any such attempt as surely as I was obliged to resist any attempt to identify us with the particular organization by which the parade was conducted.

DR. M'GLYNN ON O'BRIEN.

NEW YORK, June 5.—At a largely attended meeting of the Anti-Poverty Society to-night, Dr. McGlynn was the principal speaker. In the course of his remarks he said O'Brien probably did not know before who John McMicken was; but he knows to-day. O'Brien ought to be ashamed of himself, for scoring out of the resolution that the land belongs to the people. O'Brien is a landlord at heart himself. It is only a question of a small percentage between O'Brien and Lansdowne. The resolutions about coercion, about Italy, and other countries were framed partly through O'Brien himself. The speaker said, when our friends discovered that they could do nothing with O'Brien they determined to go on and give him a dose of coercion about Italy. They were going to send their own greetings to Ireland and not what O'Brien thought. We thought the coercion clause would displease O'Brien, and some of his advisers. McMicken made a speech in which he said that he has only contempt for a man who would lead good men to acts of violence.

EARL OF ABERDEEN IN 'FRISCO.

SAN FRANCISCO, June 6.—The Earl of Aberdeen who was Lord Lieutenant of Ireland when Gladstone was at the head of the English Government is expected to arrive at this port by steamer from Australia, he now being engaged in making a tour of the world. The British residents here are making preparations to give him a proper reception on his arrival.

The Minstrels.

Baird's minstrels arrived this afternoon on the North Pacific and marched up Yates street to the music of their brass band, followed by a large crowd. Cool Burgess was conspicuous in the van and saluted THE TIMES staff in a becoming manner, to whom he is well known. His many Canadian friends will welcome him. The company open to-night at the Victoria to selfed minstrelsy. A crowded house is assured.

He was also presented with an illuminated address by his congregation, and a purse of gold, besides a gold watch and chain for Mrs. Starr. Mr. Starr is expected to arrive in Victoria in the course of a week or so.

MARINE.

The steamer Walla Walla, which left San Francisco on the 3rd for Vancouver with a full cargo of freight for transit east over the C. P. R., passed up the straits this morning, having made a quick trip.

Advices have been received in the city that a couple of sailing vessels will leave China and Japan for Victoria in a few days. These vessels are reported to be over 1000 tons each.

Enjoy Life.

What a truly beautiful world we live in! Nature gives us grandeur of mountains, glens and oceans, and thousands of means of enjoyment. We can desire no better when in perfect health; but how often majority of people feel like giving it up disheartened, discouraged and worn out with disease, when there is no occasion for this feeling, as every sufferer can easily obtain satisfactory proof, that Green's August Flower, will make them free from disease, as when born. Dyspepsia and Liver Complaint are the direct causes of seventy-five per cent. of such maladies as Biliousness, Indigestion, Sick Headache, Costiveness, Nervous Prostration, Dizziness of the Head, Palpitation of the Heart, and other distressing symptoms. Three doses of August Flower will prove its wonderful effect. Sample bottle 10c. Try it.

Pioneer Celebration.

The pioneers of Port Townsend will hold their annual reunion at that port to-morrow, and cordially extend an invitation to all pioneers on the coast to gather together there and exchange views before leaving this world. To-morrow these hardy sons of the coast will meet in session, and on Wednesday a grand barbecue, typical of American life, will be held. Several oxen will be roasted, a clam-bake indulged in, and the novelty of a whale, if it can be obtained by Indians, will also be roasted and served up. Stories told of early life, jokes recited of younger days and a general pow-wow by the jolly old souls will make these sturdy sons of the west once again feel as juvenile as kittens.

Hospital at Banff.

It is reported, and there is every reason to believe that it is genuine, that Sir George Stephen an Sir Donald A. Smith are about erecting a branch hospital at Banff springs in connection with the Victoria hospital to be erected by these gentlemen in Montreal. THE TIMES has been assured on the highest authority that the scheme will be undertaken this summer.

Entertainment.

Miss Collin's pupils will give an entertainment in the Y. M. C. A. rooms, Denny's block, Broad street, on Wednesday evening 15th instant. CABINET CHANGES.

In political circles the selection of the Hon. J. A. CHAPLEAU, Secretary of State, as Lieut.-Governor of Quebec is regarded as a settled fact. It is said that the position was first offered to Sir HECTOR LANGEVIN, who at once declined it, expressing the belief that he would be more useful in Federal politics. Hon. Mr. CHAPLEAU was then approached, and with the result, already stated. His friends and supporters have become alarmed lest he should accept, claiming that his presence is required here especially for the next four years. A large deputation composed of English and French Canadian members of parliament waited on the Secretary of State urging him not to resign his seat. Hon. Mr. CHAPLEAU in reply said he had the question of accepting the Lieut.-Governorship under consideration, but he would try to have some regard for their representations. No appointment will be made in any event until after the House is prorogued. Many of Mr. CHAPLEAU's friends take the view that his removal from active participancy in politics for a few years would only strengthen him, feeling certain he could bring about the great task of conciliating the different wings of the Conservative party in the province of Quebec. Four years more at least, it is claimed, would see him back to Ottawa. Many of his friends have also represented that his acceptance of the Governorship will also improve matters at the capital, resulting in the termination of an old rivalry between the leaders of the French Canadian element, as well as of their respective supporters. In the event of the appointment of Mr. CHAPLEAU, various changes will be made in the cabinet, Senator LACOSTE and Speaker OUIMET are mentioned as likely to enter it. The rumor is again current that Sir CHARLES TUPPER will leave the Cabinet and return to England after the session. Hon. Mr. KIRKPATRICK, ex-Speaker, is spoken of as sure to enter the Cabinet in that event.

HON. MR. BLAKE.

The latest reliable news from Ottawa about the relations of the Hon. EDWARD BLAKE to his party is that the honorable gentleman has been ordered by his physicians to discontinue attendance at the House for the remainder of the session. The Toronto *Globe* of Friday says that Mr. BLAKE will only retire for the session, and not permanently. A residence for the summer at Murray Bay, the Canadian summer resort on the St. Lawrence, where the leader of the opposition has purchased a residence, will, it is earnestly hoped, restore him to health again, so that he may be enabled to resume his place at the head of the Liberal party. Every Canadian who is not blinded by a bigoted partizanship, will deplore the absence, even for one session, of Hon. Mr. BLAKE. There is no man in the Liberal ranks who can take his place, although there are a dozen men of conspicuous ability and many years parliamentary practice. We earnestly hope the honorable gentleman's enforced retirement will only be temporary.

POLITICS AND POLITICIANS.

THOS. ROBINSON, ex-M.P.P., of Kingston, one of the leading Orangemen of Ontario, died of paralysis.

SIR ALEX. CAMPBELL was sworn in as Lieutenant-Governor on Wednesday by Chief Justice Hagarty.

THE Young Men's Liberal club of Toronto held its third annual dinner on Tuesday night, about 125 being present. Some ardent home rulers would not rise for the Governor-General's health. Canada's future was the topic of the evening and a very strong annexation feeling was expressed. President Gregory spoke of Canada's condition and declared himself a straight annexationist, as also did several other speakers.

THE Canadian fisheries question is regarded in London as practically settled, though the public have not been given reason to believe that the negotiations between the English and American Governments were on the eve of conclusion. The settlement, it is understood, will give American and Canadian fishermen equal rights in disputed waters and in return for the concessions made by Canada the latter is to receive substantial benefit in other directions.

THE death at Rigaud is announced of Mr. J. B. Mongenais, ex-M. P. for Vaudreuil. Mr. Mongenais was one of the founders of the Bourget college, at Rigaud, and played a large part in the political battles of Quebec, representing as he did the county of Vaudreuil in the Canadian Assembly from 1848 to 1857, and from 1860 to 1864, and afterwards in 1878, when 15 years ago, being elected to the Commons for the same constituency. The deceased had attained the ripe old age of 83.

In the Senate, next Thursday, Hon. Mr. McInnes will ask: Is it the intention of the government to give to British Columbia and the prairie division of the Dominion each representation in the Cabinet? If so, when?

M. H. Gault, ex-M. P. for Montreal West, died on last Wednesday afternoon, aged 65. Mr. Gault was a son of the late Leslie Gault, of Strabane, county Tyrone. He was born in Strabane, July, 1822, and came to Canada when about 21 years of age and became engaged in insurance business. He was the founder of the Irish-Protestant Benevolent society of Montreal, the parent society of the Dominion. For many years he took an active interest in the volunteer garrison artillery, from which he retired, retaining his rank as captain. He was first returned to Parliament at the general election in 1878, and was re elected in 1882. He was a Conservative.

POLITICAL NOTES.

Proceedings in Parliament---Bills Introduced.

Mr. McCarthy introduced a bill providing for better protection for lives of railway employees.

The writs have been issued for the local elections in East and West Algoma. The nomination day is June 23rd and polling day July 7th in both constituencies.

While the House was discussing the conduct of returning officer Dunn in the Queen's, N. B., election case, Dr. Landerkin said he had little respect for the House if it approved of the conduct of a rebel, a coward and a base falsifier.

An Ottawa correspondent says that the Governor-General's Secretary accompanied Sir Charles Tupper to Washington bearing dispatches to the British Minister. It is also learned that Sir Charles had a lengthy interview with Mr. Secretary Bayard regarding his confidential mission.

Senator Schultz's committee of enquiry regarding Manitoba, the Northwest and British Columbia is likely to accomplish much good. Already Professor Lawton, the new President of the Royal Society, was examined, and gave evidence respecting coniferous trees. Prof. Bell is to be examined Monday, Sir Donald Smith on Wednesday, and on Tuesday probably the Manitoba, Northwest and British Columbia members.

It is stated now that Chapleau will succeed Masson as Lieut.-Governor of Quebec, and so generally was the report believed that a large number of his followers in the House waited upon him to ask him not to accept. Chapleau said he had the question of acceptance under consideration, but would have some regard for their representations. The matter has not yet been discussed by the cabinet and no appointment will likely be made until after prorogation.

The total values of farm products and animals exported to Great Britain from Canada during the year 1886 amounted to $22,543,891. Of the same articles to the United States, Canada exported $15,495,783. Taking the total exports to the two countries they stand—$41,540,304 to Great Britain; $33,747,871 to the United States. These statements are to be found on pp. 752 and 757 of the Trade and Navigation Returns for 1886.

Mr. Mitchell last Monday enquired of the ministry whether the government with a view of obtaining an arrangement of a reciprocity treaty or a commercial trade arrangement with the United States have received any propositions either written or verbal from the Government of the United States or any member thereof, and if so, from whom have such proposition or propositions been received, and if so, what is the nature thereof, and have the government or anyone on their behalf made any proposition to the Government of the United States, or anyone on their behalf, and if so, what is the nature thereof.

The correspondent of the *Globe* at Ottawa says: The circumstantial story of Mr. Blake's intention to resign the Liberal leadership at the close of the session, as published in several Tory organs of to-day, creates a good deal of amusement here. The report was deliberately concocted out of whole cloth for the purposes of a morning sensation and its value is estimated accordingly. The Liberals in the House are entirely satisfied with the present arrangement by which the management of the business of the opposition is directed by an advisory committee, and Mr. Blake does not seek nor would he be permitted to retire from the position of supreme control which he now holds with the most hearty approval of every member of the party.

Death of a Noted Athlete.

Many of our Scottish and Canadian readers were familiar with Mr. James Fleming, the noted athlete, whose feats at many of the Caledonian gatherings elicited such applause from the thousands who witnessed his wonderful skill and powers. His death at the residence of Mr. Donald Dinnie, an equally famous athlete in Scottish games, is announced by the Melbourne *Sportsman*. The event occurred in that city. Up to thirteen years ago Mr. Fleming was renowned all over Great Britain and America as one of the best all-round athletes. He visited America in 1871, traveling over the States and Canada, and beating all comers at throwing the hammer, putting the stone and tossing the caber, and he also won many prizes at running and leaping, as well as dancing. He returned to Scotland for the winter season, revisiting America the following summer in company with the champion, Donald Dinnie, when they were completely victorious at the annual athletic meetings at throwing weights, wrestling, running, leaping, dancing, &c., in over 250 contests that season alone. In 1870, throwing a 16 pound hammer, fair stand, Fleming succeeded in throwing his best record—121 feet 4 inches. He also recorded 38 feet at putting the stone of 22 lbs. weight, 46 feet 9 inches in putting a stone 16 lbs., and 23½ with 1 stone weighing 38 lbs. He has also thrown a 56 lb. weight 15 feet. He has also vaulted 14 inches—length (including thickness) 24 feet 1 inch. When in good form at leaping, he has recorded 5 feet 7 inches. During his athletic career he won over 1,400 prizes.

Astonishing Success.

It is the duty of every person who has used *Boschee's German Syrup* to let its wonderful qualities be known to their friends in curing Consumption, severe Coughs, Croup, Asthma, Pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all Druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as 80,000 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the *German Syrup* cannot be too widely known. Ask your druggist about it. Sample bottles to try, sold at 10 cents. Regular size, 75 cents. Sold by all Druggists and Dealers, in the United States and Canada.

A donation of $20 has been received at Montreal from Gen. Boulanger towards the Jacques-Cartier monument fund.

Parent is 27 years old, and leaves a wife and three young children behind. Faro caused his degradation.

A terrible drowning calamity happened in Burlington Bay, Hamilton, on the 27th ult., whereby a father and mother, a sister-in-law and four children were drowned, but how never will be known as none of the occupants of the boat were left to tell the tale. It is surmised that one of the squalls, which were frequent on the evening, caused the boat to fill. Three doubly orphaned children remain, of what was a few hours before a large and happy family. The victims were Mr. J. H. Thompson, his wife, children and Miss Vincent.

The debate on the question of instrumental music broke out afresh in the general assembly of the United Presbyterian church at Philadelphia, last Wednesday. Rev. T. Tates, of Keokuk, Ia., has been using an organ in his church, and a committee of the assembly have been considering a complaint made to them about it. The committee to-day resolved that the church rule forbidding instrumental music has been repealed and the assembly has no jurisdiction in the matter. Rev. James Brown wanted some action taken on the complaint. He averred he had refused to go into the Keokuk church to preach, though the congregation promised to concert the pagan with a cloth. It was a matter of conscience with him. Other clergymen spoke, some declaring that no law against instrumental music ever existed, and such a law could not be supported by Scripture precept and others held that there is such a law now in force. Rev. Geo. C. Vincent declared the organ ought to be excluded. The report of the committee was finally adopted by 100 to 50. The organ, therefore, remains.

The Total Existing Assurances in force at November 15, 1886, amounted to $90,607,745

The Claims by Death or Matured Endowments which arose during the year amounted, including Bonus Additions, to $ 2,937,080

The foregoing interesting facts in connection with the operations of the Standard Life Assurance Company during 1886 commend themselves not only to the numerous body of policy holders within the province, but to those who contemplate assurance. The enormous financial strength of this old established institution, the liberal conditions of its Policies, the large periodical distribution in Bonuses to its Policy holders, and the numerous facilities afforded for assurance both by Endowment or Whole Life Assurance, all combine in placing the Standard in the first rank of Life Assurance Companies.

The Local Board of Directors at Victoria have full power to accept Proposals, issue Policies, and settle claims. Full particulars and rates for Assurance can be procured from the Agents and Secretaries to the Board.

ST. JAMES' SUNDAY MORNING.

The solemn church bell pealing on the ear,
In brazen accents seem to say,
"Come stricken heart and find your solace here;
Come, sinner; come and pray."

And fast they come arrayed in fashion's pride,
In silks and satins shimmering gorgeously;
To lay the burdens of the world aside
And bow the suppliant knee.

If one could for the moment stand aloof
Impersonal, with power to read the stream
Of thoughts uprising toward that lofty roof,
How wondrous strange 't would seem.

Fair Nellie, hoping she won't get too stout,
Her father scheming to increase his hoard,
While over all the preacher's voice rings out,
"Hear us, good Lord."

While Charlie prays the tailor will give time,
Maud sighs for gowns she knows she can't afford
And Helen hopes that flirting is no sin.
"Hear us, good Lord."

Some wish for luxuries and some for love,
Some for revenge, some only sigh for rest,
Some fix their souls upon the realms above,
Some laugh and jest.

I often wonder does the preacher know
What lies behind that mask of seriousness
Upturned before him, placid, row on row.
I wonder does he guess?

Well, I myself have little cause for pride,
For following aimlessly this idle dream
Instead of listening, rapt and eager eyed,
Unto the preacher's theme.

The benediction finished, we arise.
Let's vow while going to our several dinners
To try to be, so far as in us lies,
A decent lot of miserable sinners.

WOMEN SOLDIERS CAPTURE A SPY.

The Exploit of a Band of Female Mexicans During Maximilian's Regime.

Aside from the class of females commonly known as camp followers, who share the fortunes of war without leave or license, the Mexican government permits a limited number of respectable married women to accompany each regiment to cook and wash for the soldiers. These women are regularly enrolled as soldaderas (female soldiers), and admirably they bear the fatigues of camp life and long marches. That they are not bad warriors in their way the following story is proof:

During Maximilian's regime, when European forces were in possession of the Mexican capital, and President Juarez, with his cabinet and guard, were trying to make their way to Paso del Norte, he and his counselors had halted one day in a wayside grove to hold an important conference. Juarez was seated on a rock with the statesmen grouped around him and the military escort on on guard. The old poet, Guilermo Prieto, who was a member of the cabinet, had just arisen to state his opinion on a momentous subject, when the solemn conclave was interrupted by shouts of laughter, mingled with oaths and threats in French and Spanish.

All sprang to their feet, and the captain of the guard, followed by his men, rushed to the quarter whence the sounds proceeded. Presently they returned bringing four soldaderas, who bore upon their shoulders a Frenchman whom they had captured. Believing him to be a spy they first enticed him with cunning flattery, and then hastily binding him hand and foot with their rebosas, had carried him two or three miles despite his kicks and struggles. When the women deposited their prisoner at the feet of the president the elder soldadera excused herself for the failure of her proposed foraging expedition, saying:

"Senor Presidente, we thought this Frenchman might have papers which your excellency would prize more than a fat turkey or a young pig."

True enough, on the person of the spy was found a communication from the commander-in-chief of the imperial forces to the commander of the neighboring garrison, stating that Juarez and his cabinet would probably pass in that vicinity, and accompanying this intelligence was the formal order: "Shoot every Mexican rebel taken in arms against the imperial government of his majesty Maximilian I."—Mexico Cor. Philadelphia Record.

Bears in Alaska.

The bears around Icy bay live off of berries and roots, supplemented on the meat side of the diet with an occasional seal that they find "hauled up" on the sandy beach, sunning himself and whose retreat they strategically cut off by a well arranged plan of bear tactics. The river emptying into this Icy bay (the whole western shore of which is the frowning front of an immense glacier), debouching as they do from the ice, contains but few fish, and this deprives the bears of this region of one of their main and steadfast supplies, during the spring and summer season, in all other parts of Alaska. The bears, black and brown, then seek the rivers and streams, up which the lucious fish ascend to spawn, and readily gain a living, without the trouble of much effort.

Their great protection at this season of the year is found in the poor and even tainted quality of their meat, owing to the fact that they are not overly delicate in choosing between fresh fish just caught from the stream and those that have died on their way up the creeks and rivers, and have been thrown out on the bank for a number of days, until they take up that odor so peculiar to decaying fish. The huge brown bear is a less active animal, and consequently a poorer fisherman than his smaller brother of the black species. He is, therefore, more content to live on the fish he finds so conveniently strewn along the shores of the stream that he prospects, and this accounts to a great extent for the greater offensiveness of his meat, whenever a hunter is lucky enough in securing him.—Lieut. Schwatka in American Field.

—A curious fact connected with centipede is worthy of relating. A young man living north a few miles had been somewhat concerned at the appearance nightly in his dugout of a great number of these unwelcome visitors. Neighbors seldom or ever saw them, but he was visited to an alarming extent. He could not understand till some one learning that he was in the habit of playing on the violin suggested that the music attracted them. He suspended the concerts and the centipedes interrupted him no more.—*Richfield (Kas.) Southwest.*

—Colonel Ward Lamon, the biographer of Abraham Lincoln and marshal of the District during Lincoln's administration, will receive a fee of $250,000 in the case of the Choctaw Nation against the United States, just decided in the United States Supreme Court. The amount of the judgment rendered in favor of the Choctaws will aggregate almost $3,000,000. Lamon's fee was upon the contingency of gaining the suit. He has devoted a number of years to the case.—*Chicago Tribune.*

"DOMESTIC."

ITS CLAIM.

The "Domestic" is the best Sewing Machine ever made. It is best in plan and design, giving superior results in practical work; best in workmanship—the fitting, finishing and hardening of the working parts being most careful and exact, without the useless polishing of prominent non-wearing parts for the purpose of catching the eye. It has the best wood-work ever used on any sewing machine. No other sewing machine can show as good a record.

These facts are recognized

By its competitors everywhere, in their endeavor to secure patronage by claiming equally like degrees and qualities of merit.
"The best is always the cheapest," and the "Domestic" has proven itself to be the best.

For Tourists and Sportsmen.

Mr. D. E. Brown, district freight and passenger agent of the C. P. R., is preparing a scheme whereby tourists and sportsmen will be granted transportation from Vancouver to any point on the line east as far as Banff at greatly reduced rates. Stop-over privileges will also be extended to purchasers of these tickets. Already several of the disciples of Izaak Walton have visited several sections of the country east of Vancouver, where they have met with capital sport. The hunting season will soon be reached. The mountains are full of game. The whole country in sport is a sportman's paradise. Full particulars of the rates to be charged will be made known in due course.

An Arbitrary Proceeding.

What appears to have been an exceedingly arbitrary piece of business occurred at the outer wharf on Saturday, shortly before the sailing of the San Francisco steamer. A Chinaman with a properly signed certificate from the Collector of Customs at Port Townsend, who purchased his ticket to San Francisco, and had taken the usual precautions to enable him to return to this province, was prevented from going on board the steamer by a United States customs officer. What the grounds for his action were is not known, but at all events, if an American official can come over here, stand at the end of a gang plank and say who shall and who shall not depart on the steamers, we might as well let Uncle Sam's men run our business altogether.

Clarke, the Forger.

The prisoner A. P. Clarke, confined in the Provincial gaol awaiting the arrival of extradition papers and an U. S. officer to take him back to Truckee, Cal., to stand his trial for forgery, displays much restlessness in his confinement and kills time in pacing up and down his cell. He is communicative, and threatens to bring to light some grave facts in connection with his late employer, Elle Ellen, whom he accuses of some great crime. He also intends suing him for damages, and on the whole unearthing one of the greatest scandals of the present century. His late *inamorata*, Frankie Whitcombe, is still in the city, but her affections for the prisoner are said to have visibly cooled since his incarceration.

A Delicate Operation.

There is at the Good Samaritan hospital, Portland, Or., a remarkable case of recovery from ovariotomy. The patient is Mrs. Geo. Bailey, of Jackson county, a woman aged 45, and the mother of eleven children. Ten days ago an ovarian tumor weighing fourty-four pounds was removed from her, the operation being performed by Dr. W. H. Saylor, assisted by Drs. Wells, Wilson and Strong. The incision is already healed and the patient's condition good.

Heavy Traffic.

A 'Frisco dispatch says: As an evidence of the increasing traffic from this city east via the Canadian Pacific road, it may be noted that D. B. Jackson, ticket agent of the Pacific Coast Steamship Company, refused to book passengers on the City of Chester leaving for Victoria Friday last, as the entire accommodations were taken up.

The railroad freight situation remains unchanged. The Canadian Pacific and the Pacific Mail continue to get the bulk of the wool.

The Fourth of July.

Our American cousins on the Sound intend celebrating the 4th of July in grand style. The great celebration will be held in Tacoma, lasting three days, July 4th, 5th and 6th. About $10,000 will be raised to do the thing in a becoming manner. Competitive military drills, a firemen's tournament and championship base ball, the latter for a $250 prize, will form the leading amusements.

Heavy Expenditures.

It is stated that the Canadian Pacific Company has decided upon a large expenditure in the mountain section of their line during the present summer, variously estimated at from a million and a half to two millions. All the rock cuttings are to be widened, in order to prevent their being filled in with snow as early as they were during the past winter; more snow-sheds are to be erected as well as the entire track to be re-ballasted. The snow sheds are to be erected where experience has taught they were most urgently wanted. We are assured that when these improvements to the line are completed as well as other contemplated changes, the danger from blockades will be comparatively a thing of the past.

The Work Estate.

No section of the city has progressed so rapidly within the past few years as has the Work Estate section, at the north end of the city. On this estate quite a manufacturing city has sprung up within the last couple of years. New streets are being opened, sidewalks laid, the streets macadamized and other public improvements are being carried out. Mr. Samuel Gray has lately erected here a row of very handsome two-story houses. Ground is being prepared by him for another terrace on Blanchard Avenue in the same estate. There are also a large number of other styles being erected. Evidently this is a popular section of the city with a large number of citizens.

From the North.

The Barbara Boscowitz arrived from Fort Simpson and Queen Charlotte Island at 10 a. m. yesterday, having made the round trip in twelve days. The fishermen on the Skeena commenced work two weeks earlier than usual, but the run of fish was light, and the biggest pack in that time is about five hundred cases. Among the passengers were Maynard Cowan, (of Cowan & Shaw), Rev. Mr. Harrison and W. J. McCulloch, who made a flying visit to the northeast coast of Vancouver on a prospecting tour. There is no mining news to record, and nothing of a startling character from other sources.

To Settle Disputes.

Mr. A. M. Burgess, Deputy Minister of the Interior, who is now on his way to this coast, is accompanied by his wife. With Mr. Pierce of the Dominion Land Board at Winnipeg a tour will be made of the Northwest, where many matters in dispute will be disposed of. In company with Mr. H. H. Smith, Land Commissioner, who visited Victoria last summer, the party will proceed westward to Vancouver where existing claims and disputes of long standing will be adjusted. For a long time Mr. Burgess' health was poor, but he has improved greatly of late and expects that the present trip will do him much good.

Vancouver Water Works.

The ratepayers of Vancouver on Saturday last voted upon a by-law guaranteeing three per cent. interest upon the debentures of the Coquitlam Water Works Co. The Capilano Co. opposed the by-law, and a spirited contest was kept up during the day. The total vote polled was 58 for, to 86 against, the by-law being defeated by 28. The Coquitlam Co., we believe, will go on with their works without the guarantee. According to appearances, Vancouver is to have two water works systems, and, fortunately for the citizens, the water of both will be good.

The Jubilee.

At the jubilee committee meeting on Saturday night a programme was arranged and adopted. Messrs. A. G. Crossdaile and C. E. Redfern were appointed to arrange for music, and Capts. Simpson and Broad and Mr. C. E. Pooley were appointed judges, and Mr. R. Broderick starter. Entries for the boat races, it was decided, would have to be made at Jones' boat house not later than the 14th, and the expense of transporting the New Westminster militia, it was considered, would be more than the funds could stand.

A Curious Accident.

A letter from Mr. David Griffith, postmaster at Kootenay, informs us of a remarkably queer accident there, which resulted fatally. A man, whose name is not given, was out shooting at Erickson's, on the 15th ultimo, and when leaning on his gun his dog jumped up and pulled the hammer with his paw while playing. The contents went through the hand and then through the abdomen, and upwards. Mr. Erickson was out hunting with the man, and close by at the time. He only spoke a few words before dying.

Chinese Prostitutes.

Another little Chinese girl—somewhere about 12 or 13 years of age—ran away from a house of prostitution on Fisgard street last week, and is now cared for in the "Home," which was established for such waifs through the instrumentality of Mr. Vrooman and other Christian gentlemen. The vile den from which she escaped is said to have been broken up, and some of the other inmates are believed to have betaken themselves across the Sound. The police are doing a good work in this direction, but there is still much to be done.

New Q. C.'s

The official *Gazette* of the 4th inst. contains a notification of the appointment of Messrs. Edwin Johnson, C. E. Pooley, Theo. Davie, and W. N. Bole as Queen's Counsel. Hereafter they can write Q. C. after their names, wear a silk gown, carry a red bag, take precedence before their less fortunate brothers, and generally feel one hundred per cent. better with themselves and the world at large.

A Cheap Trip.

Next Saturday the Olympian advertises a holiday trip from Seattle to Port Townsend and the Straits as far as Race Rocks lighthouse for $1.50 for the round trip extending from 7 a. m. to 10 p. m. This it is claimed is the finest boat ride in the world, and the fare being low it is said that the Sound cities will patronize the excursion in hundreds if not thousands.

After Sheppard.

In the Court of Queen's Bench on the 2nd the grand jury brought in two true bills against Edmund Sheppard, of the Toronto *News*, for criminally libelling the 65th Battalion while in the Northwest. When High Constable Bissonnette attempted to arrest the editor it was found that he had glided away to the United States.

Nanaimo Customs.

Collections at the Nanaimo Custom House for May were:

Import duty	$2,756 65
Sick Mariner's dues	287 16
Petroleum inspection	7 50
Total	$3,051 31

Scarth not to Resign.

At a meeting of the Conservatives of Winnipeg held last week, wise counsel prevailed and a resolution was carried to the effect that Scarth be not asked to resign either his seat or the presidency of the Conservative association.

Bills Thrown Out.

Owing to the announcement of the Government's railway policy the railway committee have rejected the Regina and Wood Mountain and the British Columbia and Alberta railway bills.

Nearly Drowned.

A young boy, son of Capt. Grant, fell into the water near Point Ellice bridge on Saturday afternoon, and but for a passer-by would undoubtedly have been drowned. The young lad was standing upon some logs, which his father was about to use for a boat house, when he fell in. The stranger, whose name we believe is Crookshanks, rushed down to the water and plunged in after the boy, who had apparently come to the surface for the last time, and was making his way to shore with the greatest difficulty when Capt. Grant came to the rescue of both. The rescuer did a noble deed, and Capt. Grant is warm in his praises of the heroism displayed. The boy, who is about ten years of age, is none the worse for his bath.

C. P. R. Rates.

Mr. Robert Kerr, general freight agent of the C. P. R. western division, has announced the proposed reduction of freight rates between Winnipeg and Victoria, Vancouver and New Westminster, amounting to almost forty per cent. The amount of the reduction may be seen by referring to the following table, showing the old and the new rates:

Settling in B. C.

Mr. Alex. Patterson, who, with his step brother, Mr. Adam Innes, made a tour of the Fraser river district last week, has decided to remove from the County of Bruce, Ont., to this province. He has already purchased 160 acres of very choice land, about 2½ miles from Ladner's Landing. He returns to the east to settle his affairs and will be back in the fall with his family.
